VENEZUELA The following offering of Venezuelan coins is among the better groups to be offered publicly during the past few years. These pieces were acquired by us individually, or in small groups; we pay very well for these items and our prices are substantial in some cases. Consequently we do not offer these except to a very select sophisticated group of specialists. This listing is being made to attract additional collectors. We will discuss these pieces and quote prices to serious collectors only. Dealers are welcome to tender offers based on their own knowledge of price levels. Persons wishing to sell Venezuelan coins should seriously consider contacting us.

LATIN AMERICAN MINOR COINS

PANAMA This small nation, the isthmus connection between Central and South America, has been one of the most active numismatic areas in Latin America for some years now. Partially as a result of the USA military service personnel stationed in the Canal Zone, and also partially because of the activities and interest of the largest local dealer, Dan Sander, Panamanian coins are collected and studied by split grades and major varieties. A type collection of this coinage is relatively inexpensive in decent condition; date collecting in UNCIRCULATED CONDITION is, however, a real challenge!

PARAGUAY This small land-locked nation is well known as a result of its strong-arm dictator, Stroessner. His lengthy rule has brought stability to this naturally poor area. The coinage is varied and rather attractive with the "lion" peso of 1889 (see #59 on page 5 of this list) being the single most desirable and attractive coin. Collecting the entire series by date in AU-UNC is possible on a limited budget but requires some patience.

PUERTO RICO This Caribbean island, now a U.S. commonwealth, issued one coinage series in 1895-6 under Spanish rule prior to becoming a possession of the U.S. after the Spanish-American war. The types are all fairly common, but due to considerable popularity in Spain and on the home island, prices for nice examples are not inconsiderable.

LATIN AMERICAN MINOR COINAGE

SALVADOR This is a small Central American nation, currently torn by political unrest but which has been traditionally a beautiful and serene agricultural land. The numismatic history is fascinating; beginning with the romantic provisional coinage of 1828-1835, continuing through several counterstamp issues and proceeding to the modern coinage styles, a collector can find great pleasure and considerable challenge in this series.

URUGUAY This country, the smallest in South America, once enjoyed greater prosperity than any of its neighbors. Under European influence, a thriving economy brought a high degree of prosperity to many of its citizens half a century ago. In recent times, Uruguay has been struggling to overcome the results of its decadence. Its coinage, particularly the earliest pieces, is fascinating and highly collectible.

This concludes the fourth and final portion of the **DAVIS COLLECTION**. When PART ONE was issued five long months ago, we commented about the scope and depth of this rather remarkable group. Now that all of its segments have been presented for your consideration, you might reflect on the significance of this opportunity to acquire so many different Latin American coins.

Although we have been extraordinarily fortunate in the past four or five years in obtaining many of the large Latin American coin collections to come on the market, we can never be sure that any more will come our way. You can be assured that we will continue pursuing any significant group; hopefully another collection as notable as those of Sebian (list 5), Sander (list 7), Alvarez (list 10), Bendaña (lists 34-36) and Davis (lists 49-52) will soon be available through the facilities of **FREEMAN CRAIG & COMPANY**.

THIS LIST WILL PROBABLY BE OUR FINAL PRODUCTION OF 1979. The remainder of the year will be spent attributing the thousand or so new coins acquired since June, doing a considerable lot of recently overlooked research, catching up on a backlog of correspondence, traveling to see a few interesting groups of coins and just generally "relaxing" and taking it easy.

WE WILL BE ACTIVE BUYERS AND SELLERS AT THE INCOMPARABLE NEW YORK INTERNATIONAL CONVENTION IN EARLY DECEMBER. Visit us at our usual table!

Also please note that we may be closed from November 10-30. Our current plans include a trip to the Far East at that time. Correspondence received during that period will be answered in early December.

TERMS OF SALE: Coins are available on approval to established clients with a good payment record. New customers are asked to pay on invoice or to supply adequate financial references with their order. All coins are guaranteed genuine and as described. We offer a two-week unconditional return period. All payments are due within ten (10) days unless other arrangements have previously been made.

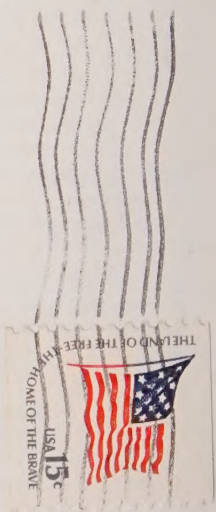

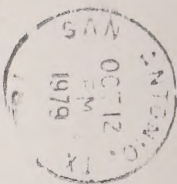

POSTAGE AND INSURANCE: We will pay postage and insurance on all domestic U.S. orders received with payment or by telephone. Others will be billed for postage and insurance. Overseas buyers will be billed for postage and a \$3.10 registration fee, plus 2% for insurance except: (1) On telephone or telegraph orders we will pay the postage and registration but not the 2% insurance, and (2) Overseas buyers are welcome to save the 2% insurance fee by insuring the parcel themselves and notifying us in advance.

PHONE ORDERS: We are open most weekdays 10 AM - 6:30 PM PDT. Our answering service will receive phone calls 24 hours a day whenever we are not in the office. Leave your name and the list numbers wanted; we will contact you in case of confusion. When personally available, Freeman or Marney (but not the answering service) can be telephoned at 415-332-1828.
